**Re: Proposed Location of "Consolidated Material TSCA Disposal Area"**  
**PCB Remedial Action**  
**Arsynco, Inc. Site**  
**Carlstadt, New Jersey**

Dear Mr. Haklar:

In accordance with Section 3 Part D) of the USEPA's *Approval for Risk-Based Clean-up/Disposal of Polychlorinated Biphenyl Remediation Waste* for the Arsynco site (the "EPA Approval"), we have enclosed a site plan showing the proposed location of the "Consolidated Material TSCA Disposal Area". The proposed "Consolidated Material TSCA Disposal Area" would encompass a footprint of approximately 49,375 square feet (SF) and would overly the "Former On-site Pond TSCA Disposal Area". As shown on the plan, the top of the area will be finished to an elevation of at least 1 foot above the 100 year flood elevation, and the entire area will be surrounded by flood and erosion control berms, as required.

Should you have any questions or require additional information regarding this matter, please feel free to contact me at (732) 295-2144.

Very truly yours,

James M. Clabby  
President
